## AUTOMOTIVE EXPERTISE IN GREECE

It was the 50's when the quantity of circulating vehicles increased in Greece, and therefore the profession of automobile expert started to appear.

In 1978, the Panhellenic Union of Experts (PEP) was founded and exists ever since. The Union has helped our colleagues evolve and prosper.

Through our Union and the Greek Institute of Insurance Studies (E.I.A.S.) we have conducted many seminars with subjects such as automobile damages evaluation, accidents reconstruction, etc.

There are no laws or regulations that rule our profession, but we adapt and follow the legal limitations that stand for insurance companies.

In the last years, the appraisals/evaluations are made through electronic systems, that facilitate the experts' work, depending on the systems chosen company.
